@everyone GM! hope you all are having an amazing day! Just want to check in and make sure everyone who's earned a MAPE has gotten one. Also want to make sure everyone has a chance to earn one. This is all about building the right community. With that said, anyone who completes any of the "aping into movement DAO" tasks will get their first MAPE. Many more opportunities to come...stay tuned

@everyone

**GM! Huge news here**

**Given the recent spike in community growth , we have decided to extend our “APEing into movements” campaign as well as our token release date!**

**Instead of 2/22/2022, the token release will be on 3/3/2022. With this, there are a few important developments to understand.**

**1. Campaign Changes:** The existing “APEing into movements” campaign remains open, with a few enhancements:

- a) - Extending to 3/3/2022*
- b) - an airdrop of MAPES now for those who have already contributed in the campaign*
- c) - an allocation of tokens based on total points earned*

**2. Governance:** The MAPES will now begin representing initial voting rights, because YOU are the founding community. Those who have 5 or more MAPES will be able to vote on upcoming initiatives that will shape the future of this platform. When tokens are released, MAPES will represent super-voting rights until tokens become more broadly allocated.

**3. New Ways To Earn:** There will be new ways to earn MAPES, such as through tactical campaigns. Pay close attention to #announcements for tactical tasks like twitter campaigns, community outreach campaigns, participation in working groups (#coordinape) and many more.

**4. Community Funding:** We have received a very generous donation of \$1,000,000 from a community member who is looking to fund additional development, marketing, and community growth. To kick off governance, you will use your MAPES to determine how to best deploy these funds!

These are huge announcements, especially for such a new DAO  
- we hope you take advantage of this and help us make a

📢 Some big announcements here @everyone

## Updates On Juicebox Partnership

We have launched a Matic deployment of Juicebox: <https://matic.move.xyz/#/>

This L2 Juicebox v1.1 experiment was undertaken by Movement DAO with the kind help from the cool-cat-developers of JuiceboxDAO, WAGMI Studios, and Peel DAO (more on them later), and the community members who make everything happen.

Movement DAO is a community funded, operated, and deployed Web3 endowment whose purpose is to facilitate the incubation, funding and sustenance of decentralized communities regardless of purpose - from an innovative start-up to a public good, as long as communities form and take action. Movement DAO is building applications and tools within and on Juicebox v2 to bring crypto treasury management to everyone by enabling affordable L2 solutions (Polygon, Optimism), simplifying creating and deploying NFT collections, curating and selling digital assets, and built-in treasury tools for decentralized finance, and liquidity management.

## Announcing The Peace DAO Movement

Russian community member natasha-pankina.eth, in collaboration with Ukrainian descendant @theryanking joined forces on a beautiful NFT collection for Ukraine relief. The

Peace Movement (<https://peace.move.xyz/>) is dedicated to funding relocation expenses for Ukrainian refugees.

They are using Juicebox (<https://juicebox.money/#/p/peace>) to conduct the token sale and what is amazing is that they have configured their funding to automatically give 15% of all contributions directly to the movement endowment.

Because of our co-development relationship with Juicebox that's ongoing, this project was part of an experiment in using the Juicebox platform to kickstart a movement that is intended to later be migrated to the move.xyz platform. This means that the project will be able to have the benefits of a continuously funded, sustainable treasury. The project is currently deployed on Ethereum and well as our new Matic deployment of Juicebox , representing a more environmentally-friendly approach to decentralized funding.

We will be hosting a workshop soon for anyone wanting to kickstart an early movement through this model, and in certain cases, we will set up the Juicebox project for contributors.

Let us know your thoughts on the project in [#deleted-channel](#) !

## Governance Updates Coming

We're currently working on some processes for governance and process for submitting proposals & movements. If you want to be involved in helping to form this, let us know in [#!\[\]\(e474458956c9a37fbf9586ddb60a7fa1\_img.jpg\) governance-discussion](#) .

Additionally, we have our first Movement DAO proposal (MP-000) live with voting starting today at 9:08pm UTC. If you are a MAPE holder, make sure to vote to ensure you have no problems connecting and voting. As you'll see, this first proposal is a bit of a fun one, but will get us used to the process :).

Just a reminder @everyone that there are MAPE gated channels (e.g., for governance).

We are in the process of putting out some governance proposals for the community to vote on and would like as much participation from the Movement DAO community as possible. So if you would like to be involved in governance (either as a voter or proposal creator), make sure you get your MAPEs through the #🎁 | giveaways .
